

Industrial & Crane Metal Buildings

NUCOR
BUILDING SYSTEMS

The Brand of Choice

www.NucorBuildingSystems.com

Economical Building Solutions

Many industrial buildings today house manufacturing processes that require the lifting or moving of heavy and large objects, and often incorporate a variety of material handling systems. Nucor's engineers can provide an economical building solution that meets your requirements. The end result is an attractive, affordable facility that serves your function and performs year after year.

Fewer (or No) Interior Columns

NBS can reduce or eliminate the need for independent crane columns. Many buildings can easily be designed to handle the loads imposed by the crane system. The elimination of the redundant crane structure often results in substantial savings for the building owner.

NBS Understands Industrial Buildings

Nucor has designed, fabricated, and shipped thousands of industrial buildings. Our expertise in mill building applications has earned NBS a highly respected reputation throughout the industrial community.

Easily Adapted for Crane Support

Buildings by Nucor Building Systems can easily be adapted for support of most crane systems. Our engineers design the building structural system to accommodate the crane design as specified by your project architect or engineer.

Custom Designed Building

As a leader in the steel and metal building industry, Nucor offers the advantages of design flexibility and energy efficiency - creating a manufacturing facility uniquely suited for your specific needs. Not to mention the predictable stability of a steel building. For the competitive advantages over traditional construction, turn to Nucor Building Systems.

Why Nucor Building Systems?

The Highest Quality Standards

Nucor Building Systems is one of the first metal building companies to achieve IAS AC472 accreditation - the high quality standard certification program written specifically for the metal building industry. All engineering follows industry specifications and standards published by the American Iron and Steel Institute, Canadian Sheet Steel Building Institute, and the Metal Building Manufacturers Association, with the ability to design to Factory Mutual approval. These standards help ensure you have a safe, dependable metal building.

Your Building Is Custom

Nucor Building Systems will custom design your facility, incorporating the latest engineering knowledge in the industry today, to meet your unique requirements. Your facility will be designed and certified by company registered professional engineers, and fabricated to your specific needs.

Financial Stability

As a Nucor (Fortune 500) company, we are one of the most flexible and diverse building manufacturers in operation today, with access to our own steel supply. Even in economic challenges, our no lay-off practice ensures your building is being designed and fabricated by well trained, loyal employees who know their jobs.

Indiana Plant

305 Industrial Parkway
Waterloo, IN 46793
Ph: 260.837.7891
Fax: 260.837.7384

Northeast Sales Office

201 Granite Drive
Suite 280
Lancaster, PA 17601
Ph: 717.735.7766
Fax: 717.735.7769

South Carolina Plant

P. O. Box 1006
200 Whetstone Rd.
Swansea, SC 29160
Ph: 803.568.2100
Fax: 803.568.2121

Texas Plant

600 Apache Trail
Terrell, TX 75160
Ph: 972.524.5407
Fax: 972.524.5417

Utah Plant

P. O. Box 907
1050 North Watery Lane
Brigham City, UT 84302
