# Economical and Efficient

When planning your religious facility, economy and efficiency are important. Your solution is the advanced technology offered in a Nucor metal building. Metal building technology allows your design professional the freedom to concentrate on improving the form and function, while you enjoy the economic benefits a metal building has to offer.

# Design Flexibility

The clear span construction of a metal building easily accommodates the need for large open areas, and specially designed mezzanines offer beautiful balconies. The design advantages of a metal building offer an abundance of exterior options, as well as canopies, fascia, and parapet walls to enhance the appearance of your religious facility.

# Predictable Stability

As a member of MBMA and CSSBI, with IAS AC472 accreditation, Nucor metal buildings adhere to stringent specifications to ensure the high quality and stability you need, giving you peace of mind and confidence both now and for years to come.

# Stringent Design Standards

# Ease of Expansion

As your congregation and ministry grows, your building may need to grow as well. One of the many benefits of a metal building is that your church can be designed with expandable endwalls to accommodate your future growth.

# Why Nucor Building Systems?

## The Highest Quality Standards

Nucor Building Systems is one of the first metal building companies to achieve IAS AC472 accreditation - the high quality standard certification program written specifically for the metal building industry. All engineering follows industry specifications and standards published by the American Iron and Steel Institute, Canadian Sheet Steel Building Institute, and the Metal Building Manufacturers Association, with the ability to design to Factory Mutual approval. These standards help ensure you have a safe, dependable metal building.

## Your Building Is Custom

Nucor Building Systems will custom design your facility, incorporating the latest engineering knowledge in the industry today, to meet your unique requirements. Your facility will be designed and certified by company registered professional engineers, and fabricated to your specific needs.

## Financial Stability

As a Nucor (Fortune 500) company, we are one of the most flexible and diverse building manufacturers in operation today, with access to our own steel supply. Even in economic challenges, our no lay-off practice ensures your building is being designed and fabricated by well trained, loyal employees who know their jobs.
